BugReports https://github.com/Lambeek/finqreportr/issues

VignetteBuilder knitr

RoxygenNote 7.1.1

NeedsCompilation no

Encoding UTF-8

R topics documented:

GetBalanceSheet   *Acquire balance sheet.*

Description

Extracts and displays balance sheet from the quarterly report of a given company.

Usage

```
GetBalanceSheet(symbol, year, quarter)
```

Arguments

`symbol`	A character vector specifying the stock symbol of the company of interest
`year`	A numeric vector specifying the year during which the report was filed
`quarter`	A character vector specifying the quarter during which the report was filed

Value

A data frame representing a company's quarterly balance sheet from a given filing year

Examples

```
## Not run:
GetBalanceSheet("FB", 2016, "Q1")

## End(Not run)
```

GetCashFlow   *Acquire statement of cash flow.*

Description

Extracts and displays statement of cash flow from the quarterly report of a given company.

Usage

```
GetCashFlow(symbol, year, quarter)
```

Arguments

`symbol`	A character vector specifying the stock symbol of the company of interest
`year`	A numeric vector specifying the year during which the report was filed
`quarter`	A character vector specifying the quarter during which the report was filed

Value

A data frame representing a company's quarterly cash flow statement from a given filing year

Examples

```
## Not run:
GetCashFlow("FB", 2016, "Q1")

## End(Not run)
```

GetIncome *Acquire income statement.*

Description

Extracts and displays income statement from the quarterly report of a given company.

Usage

```
GetIncome(symbol, year, quarter)
```

Arguments

symbol   A character vector specifying the stock symbol of the company of interest

year   A numeric vector specifying the year during which the report was filed

quarter   A character vector specifying the quarter during which the report was filed

Value

A data frame representing a company's quarterly income statement from a given filing year

Examples

```
## Not run:
GetIncome("FB", 2016, "Q1")

## End(Not run)
```
